Who We Are.

Disability Rights Michigan (DRM) serves individuals with disabilities. A disability is:

- a physical or mental impairment
- something that limits one or more major life activities (walking, seeing, hearing, speaking, learning, working)
- occurs any time in life
- affects children or adults

DRM is an advocacy organization.

Our staff include attorneys and advocates who are dedicated to advancing the human and civil rights of individuals with disabilities. DRM allies with the civil rights community to make progress in Michigan.

DRM is independent of state government and is not connected to service providers or facilities. We are private, nonprofit, and nonpartisan, funded by Federal, state, and private grants and donations. We serve the entire state of Michigan.

What We Do.

Statewide.

DRM Tackles Statewide Legal Problems. Individuals with disabilities face barriers in school, work, voting, community services and many other areas. DRM advocates and attorneys go after these problems through direct advocacy and litigation. DRM also makes systemic change through public policy advocacy, media advocacy, and training/outreach.

DRM Addresses Abuse and Neglect. Individuals with disabilities suffer from abuse, neglect and exploitation in facilities where they live and receive services. DRM monitors facilities and investigates abuse and neglect cases to better protect vulnerable people. DRM has authority to access people, facilities, and in some cases records in our work.
